

REQUEST FOR AT-HOME DEPENDENT CARE

Your request for Dependent Care is a request by you, the student, asking the Financial Aid Office (FAO) to make an adjustment to your financial aid award. This adjustment is based upon your spouse being unable to work in order to provide care for children whom you have custody of. Further, it is expected that you can demonstrate the fact that your family would suffer a financial hardship if your spouse worked and had to pay for childcare.

Per federal requirement, the FAO may only consider requests on a case-by-case basis. If documentation is requested, then your Financial Aid Counselor will let you know specifically what will be needed for your individual request. Finally, if documentation is required, then a Request for At-Home Dependent Care will not be approved until the requested documentation has been provided.

Student's initials _____

Please list name and age of your children.

Name	Age
_____	_____
_____	_____
_____	_____
_____	_____
