

**REQUEST FOR PROPOSALS
HYPERBARIC MEDICINE AND/OR WOUND HEALING
UNTHSC RESEARCH SEED GRANT OPPORTUNITY
Proposal Submission Deadline: November 23rd, 2009**

Purpose:

To foster research in hyperbaric medicine and wound healing and enhance UNTHSC's opportunities for external funding in these two areas particularly from Federal Agencies

Program Scope:

Funds have been made available to support innovative research focused on uses of hyperbaric pressure in medicine, and/or on mechanisms / therapeutic strategies for wound healing. Focus of research projects may be basic, translational and / or clinical.

One grant of up to \$35,000 will be granted. A budget that describes personnel and planned expenditures must be submitted with the application

Eligibility and Limitations:

Any UNTHSC faculty member eligible to apply for external support may submit a proposal. The grant proposal should be submitted by the lead PI listing the other investigators as co-investigators. *A faculty member may submit both a proposal as a Principal Investigator, and one as a Co-Investigator.*

Funding Priorities:

This is a seed grant program. Thus, the proposal judged to be most meritorious and likely to result in extramural funding will be given highest priority. Within that framework, the following additional priorities are noted:

- Interdisciplinary research involving faculty from multiple UNTHSC schools
- Projects that include an industrial partner.

Proposal Submission Process:

An application kit, cover page, and budget template can be downloaded from [http://www.hsc.unt.edu/research/researchoffice/Current Intramural Funding Opportunities.html](http://www.hsc.unt.edu/research/researchoffice/Current_Intramural_Funding_Opportunities.html)

- **Proposal submission deadline:** Monday November 23rd, 2009 at 5:00 pm
- **Award notification:** Friday January 15th, 2010
- **Award period:** February 15th, 2010 – February 14th, 2011

Other Questions or Concerns:

Additional questions or concerns should be directed to: Peggy Smith-Barbaro, PhD, Director, Office Strategic Research Initiatives pbarbaro@hsc.unt.edu .
